HH VOC - Stevenage South Street-O

Six Hills Way and the A602 are fast busy roads. There are foot/cycle paths adjacent and numerous underpasses located at major road junctions and most points where footpaths appear to continue across the road. Please do not cross on the level.

Please take care crossing all roads. There are lots of parked cars which reduce visibility and often reduce the road to a single carriageway. Vehicles can approach on the wrong side of the road. Watch out for cyclists everywhere.

Please be courteous to other users. Other people have as much right as you do to use the area.

Some extra paths have been added where they could be useful. Some have gone, but there are many more!

You have 45 minutes to visit as many controls as you can. Circle the correct answer. Answers can usually be found on fixed notices, but 3 clues obviously refer to features found at the location.

20 points per control. 10 point penalty for every minute (or part minute) late.
